

Comparison of ILDF vs. ADDIE
Betty, Cherry, Lori and Lori

ILDF	ADDIE
Differences	
Social Context	Trainer/Teacher use
Broader environment of students (looking at different groups of learners, not catering to one type of learner, look at all things that affect the instruction, teacher, parents, students, home life etc.)	Objective view of ID
Iterative (self-correcting) - Integrated and phases are cyclical	Linear – phrases repeats itself
Developer is more central (experiences are considered)	Learner is more central (designed is tailored around the learner)
Similarities	
Exploration	Analysis
Enactment	Design/Development/Implementation (formative evaluation)
Evaluation (formative)	Evaluation (summative)
